

ADOPTIONS TOGETHER

2018 Annual Report

January 1, 2018- December 31, 2018

Dear Friends,

We have just completed another year of fostering safety and stability for children in our community! It's been a blessing to maintain this focus, to provide critical services and to welcome and serve every child and family that has needed us. We remain vibrant, committed and inspired to listen and respond to the needs of the community.

Since the beginning, we have known that the health of a family is dependent on the strength of intra-family relationships. Our focus for 2018 was on strengthening those relationships and the systems within which families interact.

We maintain the vision that every child be given a life-long connection to a caring, nurturing family – the fabric of our society. Family is the fabric that bonds us as a society and our services strengthen this very fabric. The well-being of each individual family member directly impacts the overall health of our society. And, as such, we continue to work in tandem with our community to enhance the opportunities for children and families to thrive.

Our training spanned from community-based to national and international, and our on-line training expanded in scope and number. Programming in Ukraine expanded. We were able to teach critical concepts, such as the foundations of attachment and trauma, and methods of healing the effects of child abuse and neglect. A lot has been accomplished! And yet, we still have so much work to do to achieve our simple goals. Presently, in our region, there are over 3,500 children in foster care, and across the country, nearly 124,000 children. We stand fully committed to ensuring that youth living in state foster care exit the system with a connection to a caring adult family. We remain dedicated to responding to the cries of a woman pregnant at a time she is ill equipped to raise a child and is seeking to explore the option of adoption. To realize these goals, we need your help.

As you read through these pages, I encourage you to consider the ways in which you personally can make an impact on the community. We are much stronger when we work together. And, after twenty-eight years, thousands of children and families and countless memories later, we hope you can join us in 2019 to make it another successful year for children and families.

With Gratitude,

Janice Goldwater, LCSW-C
Founder & Executive Director

*-Margo Devine
Director of Development*

In 2018, we received funding through fees for services delivered to families and donations. Our services are provided directly as well as through contracts with public and private partner organizations.

During 2018, our largest investment was made in ensuring we maintained a highly-skilled staff to support the families that need us. We pride ourselves in keeping operating costs low so that we can deliver what our families need.

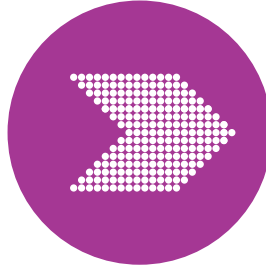

Communication & Reach

Guided by our mission and vision, we will strive to communicate the work we do to the people who need our services, our donors and our community partners.

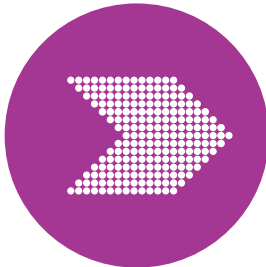

Growing Stronger, Together

We're growing our counseling program to ensure our services aren't just available to new families, but families who've been together for months, years or longer.

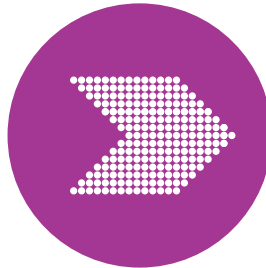

Preparing for the Future

By identifying new gaps in the changing face of child welfare, we're preparing to meet new challenges head on- with creative solutions and a well-trained team of professionals.

Expanding for Tomorrow

After 28 years, we're still growing. We're looking ahead to major changes- a growing group of engaged senior leaders, a focus on a skilled, diverse team, and comprehensive plans to serve families like yours.
